Chartered Asset Manager CAM

Course Description

The curriculum for the Asset Management Executive Certification is geared entirely towards the focus on asset management and specialist financial planning. A core group of specialty graduate topics focuses on the major functional issues of asset management planning, ranging from strategy to risk management. This is an specialization program to the entire subject; introducing, defining and explaining the concept of asset management.

Certification Issued By

Certification Issued by:

International Financial Institution Society (IFIS - USA) IFIS is a global network of professional services organization providing Financial, Client Solutions, Assets Management and Accreditation services. We have 62,000 outstanding professionals working together to deliver value in 15 countries.

WHO SHOULD ATTEND

The people for whom this training will be the most valuable are those that are new to working in asset management, or for those that deal with some aspects but would greatly benefit from being able to understand the whole picture. It is also for anybody who wishes to examine how managers should interact with the physical world and in particular the assets that are used by a business to generate wealth.
