CERTIFIED AREA MANAGER

Some people rise to the challenge. Others pull the duvet over their head and go back to sleep. The kind of person you are really determines if you can make it onto one of the most challenging, rewarding and sought-after graduate training programs in AIAL

Qualifications are important, but determination, competitiveness and team skills are vital. Within a few classes you could be managing four to six areas, so you'll also need to be able to take on real responsibility.

If you're motivated and ambitious, then you never know; one day you might wake up realizing you've landed a career that is second to none.

COURSE INDUSTRY:

- Environmental Finance Communication & Feasibility Study.
- Planning Strategist.
- General, Retail project Management.
- International Marketing Industry - FMCG (Fast Moving Consumer Goods).
- Areas Management Leadership Skills & KPI.
- Group Decision Making in Project Resources.
- Connectivity conservation, restoration ecology & dealing w/ exotic invasive species.
- Organization Breakdown Structure (OBS) (EPS) (WBS)
- Construction Method of Statement (CMS)
