

المعهد العربي للمحاسبين والقانونيين

ARAB INSTITUTE FOR ACCOUNTANTS & LEGAL

CERTIFIED BANK AUDITOR CBA

High Authority Council
for Chartered Accountants

Certified Bank Auditor

Course Overview

The Certified Bank Auditor (CBA) designation is for financial auditing professionals who service banks and other financial institutions. Candidates will have to meet education requirements, pass an examination, and have met work experience requirements to receive the CBA designation. Earning the CBA designation will improve your professional reputation, improve your career opportunities, and may lead to increased pay. New bank industry regulations and increased scrutiny from regulators over banks and financial institutions practices are expected to increase the demand for bank auditors.

Education Requirement:

You'll have to have a four-year college degree in accounting, finance, or other business field. The Institute may waive the education requirement if you have six years of industry experience in banking and internal audit. You should contact the Institute directly if you have any questions about whether your work experience can be substituted for the degree requirement.

CBA Four Areas:

- Accounting
- Auditing principles and bank laws and regulations
- Auditing practices
- General business
